CAMPUS SNOW REMOVAL PLAN

Building Operations’s snow removal and deicing vehicles work in priority order to ensure the highest risk areas of campus are open first. The map below shows the order. In extreme weather, stick to these routes to get where you’re going! We can only begin plowing when there is at least 2" of snow.

1st Priority

2nd Priority

NOTE: NW Marine Drive, SW Marine Drive and University Boulevard from Blanca to Wesbrook Mall are cleared by the BC Ministry of Transportation's maintenance contractor.
